SUBJECT: SAFE Project Data Base Management System Study

1. In reference to our conversation at the DODIIS Technical conference last week, I requested the loan of the attached final report on Data Base Management Systems. This study was completed in October 1982 which does not make it particularly current, but it is reasonably comprehensive. Other intelligence community agencies, such as NSA, have conducted similar examinations. If these would be of assistance to you, please let me know.

2. I do request that the report be returned to me after you have finished with it. I trust you find it useful and if I can be of further help, I can be reached at [REDACTED]
